About NBL

NebuLite Technology Inc., abbreviated as NBL, established a foundation for innovative illumination in 2016

Experience the future of lighting with NBL, where innovation meets elegance in LED technology. As pioneers in LED lighting, we specialize in crafting exceptional commercial and industrial-grade fixtures that blend high-performance with sophisticated design.

At NBL, we believe in transforming spaces with lights that are more than just energy-efficient - they're a testament to quality and innovation.

Our dedication extends beyond creating superior products. We are committed to providing outstanding customer service, ensuring every NBL experience is as brilliant as our lights. Trust in our globally recognized certifications, including UL, ETL, DLC, CE, RoHS, and more, for unmatched reliability.

Dive into our diverse range of Outdoor and Indoor Luminaires. From sleek Area Lighting to robust Wall Packs, versatile Post Tops, and advanced Highbays, our collection is designed to cater to every lighting need. Discover our specialized Grow Lights, innovative Panels, Troffers, and LED Downlights.

Join us in redefining illumination. For inquiries or to learn more about

NBQL

30W 50W 75W 100W 200W 240W 300W

Features

- Sleek and patented ultra-thin slim design.
- Smooth construction to prevent the accumulation of dust and debris.
- Offers CCT/Power selectability, reducing inventory and SKUs.
- Boasts IP66 and IK10 protection for enhanced durability.
- Optional features include Photocell/Motion Daylight & Dimming Sensor.
- Available in Type II, Type III, Type IV, and Type V light distribution options.
- Light shields are also available for added customization.
- Provides five different mounting options for versatile installation

Arm for Round pole

Wall Mount

Photocell Sensor (Optional)

• 3/5/7 Pin photocell available

• Shorting cap/Non-Shorting Cap products are designed for outdoor lighting switch. When installing the street light, if photocell is not required, the shorting cap or non-shortening cap will be used to cover the NEMA socket. It allows the light to remain illuminated at all times unless the light is manually closed.

• All the photocell receptacles were designed for the luminaires those intended to have an ANSI C136.10-2006 receptacle to fit a twist-lock photocell. This series conform newly published ANSI C136.41-2013 to allow a LED lamp multi-controlled through the receptacle.

• RC-100 Controller

Motion sensor (Optional)

• The ANT-5-4 is a motion sensor that dims lighting from high to low based on movement. This slim, low-profile sensor is designed for installation inside the bottom of a light fixture body. The sensors use microwave sensing technology that reacts to changes in movement within the coverage area. Once the sensor stops detecting movement and the time delay lapses lights will go from high to low mode and eventually to an OFF position if it is desired. Sensors must directly "see" motion of a person or moving object to detect them, so careful consideration must be given to sensor luminaire placement and lens selection. Avoid placing the sensor where obstructions may block the sensor's line of sight.

WPS

30W 60W

Features

- Patent full cut-off design for precise and controlled lighting.
- Optional Photocell/Motion Daylight & Dimming Sensor for enhanced functionality.
- Optical lens with high transmittance, providing T3 light distribution.
- Superior thermal management for extended product life.
- Anti-static powder coat finish for added durability and protection.

IP65

250 N Mill Rd, Vineyard, UT 84059, USA

Photocell and Motion Sensor (Optional)

ANT-9 is a moving object sensor that can detect range of 360° and its working frequency is 5.8GHz. The advantage of this product is stable working state (stable working temperature: -40°C~+70°C), ANT-9 adopts a microwave sensor (high-frequency output <0.2mW), so that it is safe and performs better than infrared sensor.

- Grey PC plastic housing with UV rating for durability.
- CCT/Power selectability for tailored lighting.
- 90-minute Emergency Backup (EM Backup).

Ordering Matrix

Model	Power	CCT	Voltage	Adding	Housing
NBVP	40W	3CCT	LV	MS	W
4FT 30W-40W-50W					
		35K = 3500K 40K = 4000K 50K = 5000K	LV = 120-277V	MS = ANT-7 Microwave Sensor EM = EM battery Back up	W = White C = Customized Color

WBW Wide body Wrap

25W 30W 40W

Features

- Die-formed cold-rolled steel body for sturdy construction.
- CCT/Power selectability for customized lighting.
- Optional Motion Daylight & Dimming Sensor/Bluetooth Mesh for advanced control.
- UV coated PC plastic prismatic lens for durability and even light distribution.
- 90-minute Emergency Battery Backup (EM) available for added security.
- Suitable for surface mount or suspension mount installations.

Ordering Matrix

Model	Power	CCT	Voltage	Adding	Housing
WBW	25W	3CCT	LV	MS	W
4FT 25W-30W-40W					
		35K = 3500 K 40K = 4000 K 50K = 5000 K	LV = 120-277V	MS = ANT-7 Microwave Sensor EM = EM battery Back up	W = White C = Customized Color

LED Linear Pendant Light

LPL

50W

Features

- CCT/Power selectability for customized lighting.
- Extruded aluminum housing.
- 20W uplight, make the enviroment looks better.

Ordering Matrix

Model	Power	CCT	Voltage	Adding	Housing
LPL	50W	3CCT	LV	MS	W
		35K = 3500 K 40K = 4000 K 50K = 5000 K	LV = 100-277V	MS = ANT-7 Microwave Sensor EM = EM battery Back up	W = White C = Customized Color

LED TROFFER KITS

3-Miunte install by 1 person

NBTRK

15W 20W 25W 30W 35W

Features

- Durable Die-formed cold-rolled steel body.
- CCT/Power selectability for customized lighting.
- Optional Motion Daylight & Dimming Sensor/Bluetooth Mesh for advanced control.
- Easy Door Kit installation for convenience.
- Elegant matte white powder coat finish for a professional appearance.
- High-diffusion polycarbonate formed lens ensures even light distribution.
- Includes a 90-minute Emergency Backup (EM Backup) for added security.

Ordering Matrix

Model	Power	CCT	Voltage	Adding	Housing
NBTRK	15W	3CCT	LV	MS	W
	2*2 15W-20W-30W 2*4 20W-25W-35W	35K = 3500 K 40K = 4000 K 50K = 5000 K	LV = 120-277V	MS = ANT-7 Microwave Sensor EM = EM battery Back up	W = White C = Customized Color

NBRT

20W 24W 36W 42W

Features

- 2*2 2*4 Die-formed cold-rolled steel body for robust construction.
- CCT/Power selectability for tailored lighting.
- Optional Motion Daylight & Dimming Sensor/Bluetooth Mesh for advanced control.
- Matte white powder coat finish for a clean and professional appearance.
- High-diffusion polycarbonate formed lens for even light distribution.
- Includes a 90-minute Emergency Backup (EM Backup) for added security.

Ordering Matrix

Model	Power	CCT	Voltage	Adding	Housing
NBRT	20W	3CCT	LV	MS	W
	2*2 20W-24W-36W 2*4 24W-36W-42W	35K = 3500 K 40K = 4000 K 50K = 5000 K	LV = 100-277V	MS=ANT-7 Microwave Sensor EM=EM battery Back up	W = White C = Customized Color

NBFP

20W 30W 40W 50W

Features

- 1*4 2*2 2*4 Durable die-formed cold-rolled steel body.
- All-steel surface with a high-gloss backed white matte powder coat finish for a professional appearance.
- High-diffusion PMMA diffuser ensures uniform and gentle light distribution.
- CCT/Power selectability for tailored lighting to match your needs.
- Fully recessed luminaire designed to fit standard T-Grid ceilings seamlessly.
- Includes a 90-minute Emergency Backup (EM Backup) for added security.

Ordering Matrix

Model	Power	CCT	Voltage	Adding	Housing
NBFP	20W	3CCT	LV	MS	W
	1*4 20W-30W-40W 2*2 20W-30W-40W 2*4 30W-40W-50W	35K = 3500 K 40K = 4000 K 50K = 5000 K	LV = 120-227V	MS=ANT-7 Microwave Sensor EM=EM battery Back up	W = White C = Customized Color

LED Downlight

NBDL 4"/6"/8"

7W 10W 12W 13W 15W 20W 22W 30W

Features

- Aluminum baffle housing for durability and aesthetics.
- Polycarbonate diffused lens for even and gentle illumination.
- Stainless steel adjustable spring-loaded tabs for secure installation.
- Powder-coated white finish for a clean and professional look.
- Includes a 90-minute Emergency Backup (EM Backup) for added security.
- 5 CCT (Correlated Color Temperature) + Wattage selectable for customizable lighting options.

Ordering Matrix

Model	Dimension	CCT	Voltage	Adding	Housing
NBDL	6"	5CCT	LV	M	W
4" 7W-10W-13W 6" 10W-15W-22W 8" 12W-22W-30W		27K = 2700 K 30K = 3000 K 35K = 3500 K 40K = 4000 K 50K = 5000 K	LV = 100-277V	N = None sensor	W = White C = Customized Color
